Summersville Call-A-Ride Extends Service Area

Special points of interest:

- Call-A-Ride
- Closure Dates
- Summersville Public Library
- Driver Recognition
- MTA Services

The Summersville Call-A-Ride service is now extending to the following areas: Canvas (Post Office), Enon (Woodstone Trailer Park), Glade Creek (Silo Road), Mountain Lake Campground, Mt. Nebo (Go Mart), and Muddelty (Route 55 exit). Fare within city limits is remaining \$1.50 one-way and fare to any of the extended locations is \$3.00 one-way.

This extension will give current and potential passengers the ability to broaden their scope of travel with MTA. Not only will this benefit passengers in Summersville and surrounding areas, but it

will also expand travel options for those coming from Webster County and Richwood.

By incorporating the Summersville Loop Route, we are able to ensure that the citizens of Summersville will have a means of transportation within city limits when the Call-A-Ride bus is on an extended trip.

The Summersville Call-A-Ride has provided transportation for many citizens over the years. During FY 2016, the total passenger count was 13,300 including 2,843 senior citizens, 748 disabled passengers and 66 passengers requiring a wheelchair. We are working hard to

make travel accessible and affordable for those in need of our services.

MTA's services are available to everyone! Our well maintained

Upcoming Holiday:

Monday, Sept. 5th— Labor Day

Partnering with the Summersville Public Library

Library Card Sign-up Month

According to the American Library Association, September is Library Card Sign-up Month. To help celebrate this month, MTA and the Summersville Public Library are partnering to offer free rides on the Summersville Loop bus.

The Summersville Loop has incorporated the Library as part of

its run and we believe this partnership will help bring awareness to the accessibility that MTA offers for the passengers traveling to the Library.

Free rides to and from the library are exclusive to the Summersville Loop route only. Passengers must present their library card to the

driver upon boarding in order for the free ride to be granted.

MTA is happy to be part of Library Card Sign-up Month. We appreciate the Summersville Public Library and all that it does for the community of Summersville. Get to your local Library during the month of September and sign-

Driver Recognition

As the FEMA voluntary agency liaison for the City of Rainelle during our horrific flooding event, I would like to recognize your drivers, Jeff Jones and Richard Peavy, for their outstanding efforts to provide assistance.

Due to heavily congested roads, Jeff and Richard jumped in and offered to take volunteers to their destinations. This helped lessen the traffic and got volunteers safely to and from their places of mucking. The drivers also brought them back to Rainelle Medical Center where they had their cars and buses safely parked. We truly appreciate MTA and their conscience drivers.

Mary Surbaugh, MTA Board Member

Dept. of Homeland Security, FEMA Voluntary Agency Liaison

Mountain Transit Authority Services

Mountain Transit Authority (MTA) has been providing bus transportation service since 1977 and continues to provide service to the general public in Greenbrier, Nicholas and Webster counties of West Virginia.

MTA covers about 250,000 miles per year with seven regular routes of service involving a staff of four, nine full-time drivers, and one mechanic. Our services include regular deviated fixed-route schedules; a Call-a-ride service within the Summersville city limits; Non-emergency medical transportation; and contract service with social service agencies for transporting their clients.

MTA services are available to EVERYONE! Our well-maintained fleet and professional drivers are ready to take you where you need to go and all MTA buses are ADA compliant. Call and let MTA help with your transportation
